WORK EXPERIENCE

Cardinal Health (via Quess Corp) | *Senior UI/UX Designer* Mar 2024 – Present • Remote

Leading product design for Order Express — a B2B e-commerce platform serving hospitals and pharmacies across the U.S. to procure medical supplies and pharmaceuticals at scale.

- ▶ Designed complex dashboards, transactional flows, and product catalog interfaces for the Order Express web platform, improving task completion and reducing user error rates.
- ▶ Led end-to-end UX research: stakeholder interviews, workflow analysis, usability studies, and data synthesis to drive measurable improvements in task efficiency.
- ▶ Built and maintained a structured, responsive component library in Figma ensuring consistency and scalability across product modules.
- ▶ Created high-fidelity prototypes and coordinated pixel-perfect developer handoff via Zeplin, reducing implementation discrepancies.
- ▶ Championed WCAG 2.1 AA accessibility compliance across core modules — ensuring the platform is inclusive for all users.
- ▶ Operated within Agile sprint cycles, managing rapid design iterations and contributing to sprint planning and retrospectives.

Key Achievements

- ✓ Boosted order completion rate by 28% through checkout flow optimization and improved visual hierarchy.
- ✓ Cut developer handoff time by 35% by establishing a unified component system and Zeplin workflow.
- ✓ Achieved WCAG 2.1 AA compliance across key modules, setting a new accessibility benchmark for the platform.

Robosoft Technology | *Senior UI/UX Designer* Sep 2022 – Jan 2024 • Remote

Designed OTT and lifestyle platforms including Discovery+, Willow TV, and Al Maha Island Lusail — delivering cohesive cross-device experiences for global audiences.

- ▶ Spearheaded UI design for Discovery+ across TV, mobile, and desktop — improving navigation, content discoverability, and user retention.
- ▶ Conducted user research, competitive benchmarking, and usability testing to validate design hypotheses and inform data-driven decisions.
- ▶ Collaborated with global stakeholders and engineering teams to translate business goals into actionable, user-centered design solutions.
- ▶ Created scalable UI frameworks and interactive prototypes that reduced new screen design time by 40%.
- ▶ Designed the AI Maha Island Lusail mobile booking app for 1.5M+ annual visitors, optimizing ticketing and event management flows.

Key Achievements

- ✓ Simplified Discovery+ TV navigation — measurably increasing content discoverability and session duration.
- ✓ Reduced new screen design time by 40% through reusable, scalable UI frameworks adopted across product lines.
